Index of Subjects

Volume 1, 1985

Abortion, missed, giant decidual reaction of ectopic pregancy simulating (case report), 117
American Registry of Diagnostic Medical Sonographers (ARDMS)
  examinations, October 27–28, 1984 (case report), 83
    highlights and educators open forum (educational forum), 78, 230
Amniotic fluid, echogenic, secondary to heparin therapy (case report), 155
Aneurysm, hepatic artery (case report), 112
ARDMS. *See* American Registry of Diagnostic Medical Sonographers
Artery(ies)
  coronary, left, anomalous origin from the pulmonary trunk (case report), 28
  hepatic, aneurysm (case report), 112
  pulmonary, anomalous origin of the left coronary artery from (case report), 28
Ascites
  abdominal, ultrasound detection in the preeclamptic patient (case report), 268
  fetal, transient, and prune belly syndrome (case report), 221
Atrial thrombus, detected by echocardiography (case report), 59

Biometry, fetal: vertical calvarial diameter and calvarial volume, 205
Bioeffects, fundamentals: beyond 100 mW/cm², 190
Book reviews
  Clinical sonography: a practical guide, 129
  Doppler echocardiography: a practical manual, 295
  Doppler ultrasound in cardiology: physical principles and clinical applications, 235
  Manual of abdominal sonography, 41
  Ophthalmic ultrasonography: proceedings of the 9th annual SIDUO congress, 129
  A thinker's guide to ultrasonic imaging, 85
Burnout, and stress in the sonographer: dealing with feelings, 200

Calvarial diameter and volume: fetal biometry, 205
Children, sickle cell anemia in, noninvasive assessment of left ventricular size and function, 109
Contraceptive sponge, vaginal, sonographic appearance (case report), 65
Coronary artery, left, anomalous origin of, from the pulmonary trunk (case report), 28
Corpus callosum, agenesis, sonographer's view, 20
Cyst, fetal ovarian, sonographic diagnosis (case report), 272
Cystic adenomatoid malformation *in utero*, sonography of (case report), 68

Diagnosis-related groups, revolution in, 81, 173
Diagnostic challenge, 233, 291, 293
Doppler instruments (physics review), 232
DRG. *See* Diagnosis-related groups
Duplex sonography, carotid, in patients undergoing abdominal or peripheral vascular surgery, 255
Dwarfism, lethal short-limbed, prenatal diagnosis, 7

Echocardiography
  findings in left atrial fibrosarcoma (case report), 224
  right atrial thrombus detected by (case report), 59
  what constitutes a good cardiac echo lab: the "team" approach (editorial), 47
Echo lab, what constitutes a good one: the "team" approach (editorial), 47
Ectopia, renal, crossed fused, sonographic diagnosis (case report), 218
Editorials, 47, 91, 135, 185, 243
Education
  continuing, the high cost of keeping informed (editorial), 185
  developing a master plan (education forum), 289
  feud games approach (educational forum), 119
  standards, improving (educational forum), 38
Ergonomics
  design considerations for ultrasound real-time scanners, 251
  hazard-proofing the ultrasound work environment (issues), 168
Ethics
  issues in ultrasound, 163
  quality vs. quantity (issues), 278

Fertilization, *in vitro*, contributions of ultrasound, 144
Fetus
  biometry: vertical calvarial diameter and calvarial volume, 205
  ovarian cyst, sonographic diagnosis (case report), 272
  prenatal puncture, ultrasound-guided, 151
  short-limbed dwarfism, lethal, prenatal diagnosis, 7
  transient ascites and prune belly syndrome (case report), 221
Fibrosarcoma, left atrial, echocardiographic findings (case report), 224

Hazards, in the ultrasound work environment: ergonomics (issues), 168
Head, neonatal, normal sonographic variants, 51
Heparin therapy, echogenic amniotic fluid secondary to (case report), 155
Hepatic artery aneurysms (case report), 112
Hip, prosthetic joint effusion aspiration, ultrasonic guidance, 247
Holoprosencephaly, ultrasonic evaluation in infant (case report), 275
Hydrometrocolpos, prenatal ultrasound appearance (case report), 115
Hydronephrosis, in pregnancy, 95
Hysterectomy, abdominal pregnancy after (case report), 157

Imaging
  duplex, detection of deep venous thrombus (case report), 62
  dynamic instruments (physics review), 80
  in the left upper quadrant, 75
  magnetic resonance
    an introduction for sonographers, 100
    ultrasound and (physics review), 127

Infant(s)
holoprosencephalic, ultrasound evaluation (case report), 275
neonatal, normal sonographic head variants, 51
renal growth and changing appearances in, sonographic assessment, 14
sickle cell anemia in, noninvasive assessment of left ventricular size and function, 109
Internship, manual for (educational forum), 171

Kidney
crossed fused ectopia, diagnosis (case report), 218
growth and changing appearance in the newborn, sonographic assessment, 14

Liability, and responsibility: sonographer's expanding role, 288

Magnetic resonance imaging
an introduction for sonographers, 100
ultrasound and (physics review), 127
McKusic-Kaufman syndrome: prenatal ultrasound appearance of hydrometrocolpos (case report), 115

Neonate. *See* Infant(s), neonatal

Ovarian cyst, fetal, sonographic diagnosis (case report), 272

Physics review, 40, 80, 127, 232
Preeclampsia, ultrasound detection of massive maternal abdominal ascites in (case report), 268
Pregnancy
abdominal, after hysterectomy (case report), 157
ectopic, giant decidual reaction simulating a missed abortion (case report), 117
hydronephrosis in, 95
massive maternal abdominal ascites in the preeclamptic patient (case report), 268
normal, psychosocial progression through: a model for sonographer–patient interaction, 55
Prenatal punctures, ultrasound-guided, 151
Prosthesis, hip joint, effusion aspiration, ultrasonic guidance, 247
Prune belly syndrome, and transient fetal ascites (case report), 221
Pulmonary artery, anomalous origin of the left coronary artery from (case report), 28
Pyonephrosis, emphysematous, 139

Real-time scanners, ergonomic design considerations, 251

Scanners, real-time, ergonomic design considerations, 215
Scanning subjects (issues), 71
SDMS. *See* Society for Diagnostic Medical Sonographers
Shoulder, painful, ultrasound examination, 261
Sickle cell anemia, in infants and children, noninvasive assessment of left ventricular size and function, 109
Society of Diagnostic Medical Sonographers
continuing medical education test, 198, 250
open forum, highlights (educational forum), 230
Spring symposium (editorial), 135
Sonographers
as professionals (editorial), 91
stress and burnout: dealing with feelings, 200
Sonography
diagnostic medical, preservation or peril (editorial), 243
duplex, carotid, in patients undergoing abdominal or peripheral vascular surgery, 255
occupational health hazards (issues), 121
Stress and burnout, in the sonographer: dealing with feelings, 200
Surgery, vascular, abdominal or peripheral, carotid duplex sonography in patients undergoing, 255

Takayasu's disease, diagnostic challenge, 233
Thrombus
deep venous, detection using duplex imaging techniques (case report), 62
right atrial, detected by echocardiography (case report), 59

Ultrasound
ethical issues, 163
suite (issues), 227

Vaginal contraceptive sponge, sonographic appearance (case report), 65
Vascular surgery, abdominal or peripheral, carotid duplex sonography in patients undergoing, 255
Venous thrombus, deep, detection using duplex imaging (case report), 62
Ventricle, left, noninvasive assessment of size and function in infants and children with sickle cell anemia, 109

Index of Authors
